

Amie Brady is a hydrologist with the U.S. Geological Survey in Columbus, Ohio. For the past seven years Ms. Brady has worked on microbiological monitoring projects for recreational water quality in Ohio's rivers, streams, and lakes. Her present work includes studies of a rapid method for *E. coli* detection and research on wetlands for treatment of bacterial contamination. She received her Master's and Bachelor's of Science degrees in Environmental Science and a further Bachelor's of Science degree in Plant Biology from the Ohio State University.
